

lamstuck Transpiler

Source code transpiler from lamstuck to C++ made with ANTL4.

Authors

- [Jan Augustyn](#)
- [Jakub KroczeK](#)

System requirements

- Python 3.8.5
- antlr4-python3-runtime==4.13.1
- antlr4-tools == 0.2.1

Installation

To install any required packages, run this code:

```
pip install -r requirements.txt
```

How to run

To transpile code to C++, compile it and run it, run this code:

```
make f="<path_to_file>"
```

To only transpile code to C++:

```
make transpile f="<path_to_file>"
```

To only compile code:

```
make compile_cpp f="<path_to_file>"
```
